

SHUBHAM ROY

SENIOR JAVA & FULL STACK DEVELOPER • UI TECHNICAL ARCHITECT

Kolkata, India +91 9732447057 shubhamroy2211@gmail.com linkedin.com/in/shubhamroy111 shubhamroy0.github.io

★ US H-1B Visa Approved (Valid through September 2026 • Houston, TX)

PROFESSIONAL SUMMARY

Accomplished **Senior Java & Full Stack Developer** with **8+ years of enterprise experience** architecting public sector solutions, scalable **Java Spring Boot microservices**, automated **Client Correspondence** systems, and modular **React.js microsites**. Domain expertise in **US State Welfare eligibility systems** (State of California), authoring business rules with **IBM ODM**, designing **Adobe AEM Designer XDP templates** for **Notice of Actions (NOA)**, and executing high-throughput **PL/SQL & Snowflake** data migrations. Proven technical leader experienced in mentoring teams of 7+ engineers and delivering resilient cloud applications.

TECHNICAL EXPERTISE

Backend & Rule Engines:	Java, Spring Boot, IBM ODM (Operational Decision Manager), RESTful APIs, Microservices, DAO Pattern, Node.js
Document Gen & Public Sector:	Adobe AEM Designer, XDP Form Templates, Client Correspondence, Notice of Actions (NOA), US State Welfare Eligibility
Frontend & UI/UX:	React.js, Redux, JavaScript (ES6+), Webpack, HTML5, CSS3, Micro-Frontends / Microsites, UI/UX Optimization
Databases & Cloud:	PL/SQL (Data Migration), Snowflake, MongoDB, Amazon S3, AWS Cloud Services
Tools, BI & Practices:	Microsoft Power BI, Git, GitHub, Webpack Bundling, Agile / Scrum, CI/CD, Code Reviews, Technical Team Leadership

PROFESSIONAL EXPERIENCE

L35 Consultant • Deloitte USI Consultancy Limited

06/2025 – Present | Hybrid, India

Project: Welfare System for State of California • Public Sector Health & Human Services

- US State Welfare Eligibility Domain:** Engineered backend services adhering to US state welfare eligibility logic, policies, and public benefit requirements (Medicaid/Medi-Cal, SNAP/CalFresh, TANF/CalWORKs) to determine citizen program benefits.
- Client Correspondence & Notice of Actions (NOA):** Spearheaded development for automated generation of critical Client Correspondence and legally binding Notice of Actions (NOAs), delivering timely benefit determinations to recipients.
- IBM ODM Business Rules Authoring:** Authored, tested, and maintained complex decision tables, rule artifacts, and conditional business logic within **IBM Operational Decision Manager (ODM)** to automate eligibility verification and correspondence triggering.
- Adobe AEM Designer & XDP Templates:** Designed and maintained dynamic XML Data Package (XDP) form templates using **Adobe AEM Designer**, mapping backend data streams to produce high-fidelity notices.
- Java Backend Integration:** Built resilient Java services to orchestrate data retrieval, execute business validations, and power end-to-end correspondence document generation workflows.

Senior Software Engineer / Technical Architect • Mphasis Limited

08/2021 – 05/2025 | Bengaluru, India (Remote)

Enterprise digital solutions, React microsite architecture, and core data migrations

- Technical Architecture & System Design:** Functioned as Technical Architect designing end-to-end component workflows, micro-frontend standards, and robust integration patterns for enterprise-grade web applications.
- Frontend Engineering & UX Modernization:** Engineered dynamic React.js microsites utilizing Redux and custom routing; redesigned user experience workflows, delivering a **20% measurable increase in user engagement**.
- Backend Microservices & DAO:** Maintained and enhanced high-concurrency Java Spring Boot microservices and Data Access Objects (DAOs), ensuring resilient, low-latency REST API communications.
- Enterprise Data Migration & BI:** Developed optimized PL/SQL migration scripts and Snowflake pipelines ensuring zero downtime; built executive Power BI dashboards.

Full Stack Developer • Cognizant Technology Solutions

11/2017 – 08/2021 | Kolkata, India

Global IT consulting, digital business transformation, and enterprise application maintenance

- Team Leadership & Mentorship:** Spearheaded an agile development team of **7 engineers**, leading sprint planning, architectural code reviews, and technical problem-solving.
- Microsite Architecture:** Designed and maintained modular React.js microsites featuring Redux state management, custom routing, and optimized Webpack build configurations.
- Portfolio Maintenance & Java Development:** Supported a portfolio of **15 enterprise applications** (99.9% uptime SLAs); implemented robust Java Spring Boot transactional endpoints and DAOs.

EDUCATION

B.Tech in Computer Science & Engineering • Institute of Engineering & Management (IEM), Kolkata

08/2013 – 05/2017

Higher Secondary (ISC - Class XII) & Secondary (ICSE - Class X) • Kerala Samajam Model School, Jamshedpur

2011 – 2013

KEY STRENGTHS & ADDITIONAL INFO

Core Competencies: US Welfare Systems, Architecture Design, IBM ODM Rules, Agile Team Leadership (7+ devs), Client Delivery

Languages: English (Fluent), Hindi (Native), Bengali (Proficient)
