SKILLS

Expert

React Js · Redux · JavaScript · Git Code Versioning · Java · Java SpringBoot · PLSQL · Snowflake · IBM ODM · Adobe AEM Designer

Acquiring or Beginner

Amazon S3 · AWS Services · Microsoft Power BI · Node Js · Mongo DB

STRENGTHS

- **Client Handling**
  Possess the ability to effectively understand client requirements and offer constructive recommendations.
- **Optimized user interactions**
  Improving engagement by **20%** through data-driven UI/UX enhancements.
- **Full Stack Development**
  Proficient in full stack development with a strong focus on React and Java technologies

SUMMARY

As a **full-stack developer** with **over 8 years of experience**, I specialize in creating innovative software solutions, enterprise web applications, and public sector welfare systems. My expertise encompasses **React JS for front-end development**, **Java Spring Boot for backend solutions**, and **data visualization with Power BI**. I have a proven track record in project migrations and welfare public assistance systems, authoring **IBM ODM business rules**, designing **Adobe AEM Designer XDP templates** for **Notice of Actions**, and leading technical initiatives. I also hold a valid **US H1B visa for Houston, Texas**, until September 2026.

EXPERIENCE

Deloitte USI Consultancy Limited

Bengaluru / Kolkata, India

Java Developer

Hybrid • 05/2025 - Present

Welfare system for State of California • Public Sector Health & Human Services

- Engineered backend business logic for the **Welfare system for State of California**, navigating US state welfare eligibility rules and citizen benefit requirements (Medicaid/Medi-Cal, SNAP/CalFresh, TANF/CalWORKs).
- Served as core developer for automated generation of mission-critical **Client Correspondence** and legally compliant **Notice of Actions (NOAs)**.
- Used **IBM ODM tools for rules writing**, decision tables, and condition authoring to automate eligibility verification and correspondence triggering.
- Designed and maintained dynamic **XDPs used by Adobe AEM Designer** for layout and high-fidelity rendering of correspondances and Notice of Actions.
- Implemented scalable **Java services** and integration components binding case data to enterprise document generation engines.

Mphasis Limited

Bengaluru, India

Senior Software Engineer / Technical Architect

Remote • 08/2021 - 05/2025

A leading company specializing in IT services and solutions

- Worked as a **technical architect** designing workflows
- Development and **maintenance of React Microsite**
- Improved the UX design of the microsite, enhancing user interaction by approximately 20%.
- Designing **Data Access Objects** for functionality
- Microsite coding involved familiarity with **Redux, proprietary routing, understanding of webpack**
- Maintenance of **Java Spring Boot applications**
- Creating **PL/SQL data migration scripts** for migration project
- Creating **Power BI Reports** for Data visualization
- Maintaining repositories in GitHub
